Mulligan
Family Fun Center

January 9, 2001

To Whom It May Concern:

I have worked with Quik Cash 24 for over ten years now while working in the family entertainment industry. I first put in one of their machines while running the Upland Family Fun Center. I am currently the General Manager for Mulligan Family Fun Center in the city of Murrieta. Tom Hale has been very helpful with making sure that everything went well with the installation and training.

Their machines have far surpassed my expectations on reliability and dependability. In the many years that I have been associated with Quik Cash I have only needed service on a few occasions. Their service technician was out and had the machine up and going in a short period of time.

One of the reasons that I am particularly pleased with Quik Cash is the low decline rate. Ours typically runs at about 6 to 7 percent. This is very low compared to industry standards. This low decline rate allows our guests to have quick access to their cash and allows them to keep spending money in our facility.

We originally put the ATM in as a service to our guests but the transaction fees from the ATM have turned into a definite revenue source typically averaging about three times the lease payment. If you have any questions regarding Quik Cash and the type of service that they have provided our company feel free to give me a call at 909-696-9696.

Sincerely,

Michael Brooks
