

Thru-The-Wall

Many financial institutions are improving performance by fine tuning every aspect of their operations. When it comes to their ATMs, many are looking at Thru-The-Wall machines that are harder working and more affordable than their stand-alone counterparts.

IMS is the clear choice for banks and credit unions interested in staying compliant and providing customer convenience at a reasonable cost. Our Thru-The-Wall solutions meet Triple DES and ADA requirements, all at affordable prices. A rear panel allows for convenient and secure access, while a solid, all weather body ensures adequate protection from the elements.

To learn more about our Thru-The-Wall ATMs and how we can support your business needs, [contact us](#).
