

RL5000 ATM

It's simply the most cost competitive embedded PC ATM in the market.

Triton's embedded PC-based RL5000 has changed the way people think about ATMs. This model offers a stunning 10.4 inch LCD display and a long list of value-added transactions – all at a much lower price point than other PC-based machines.

This model's popularity is due in part to the innovation made possible by Intel XScale,® an advanced embedded PC platform that enables a new level of high-performance and hassle-free operation. It's also becoming a preferred model because of a large capacity for storing journal records and the ease of downloading graphics for enhanced marketing efforts.

In addition to its low price, the RL5000 also offers an extremely low cost of operation. The wide range of dispensers available offers customers the ability to choose the capacity that most matches their usage, and—like all Triton technology—it's extremely easy to service. Plus the RL5000 has all the standards you're looking for in a new ATM: TCP/IP Communication, ADA compliance, an Encrypting PIN Pad (EPP), Triple DES compliance, and a surprisingly small footprint.

There's not another embedded PC ATM on the market that offers the level of performance and cost-competitiveness delivered by the Triton RL5000. The future of ATMs is here.

Monitor

- 10.4" (264 mm) color display with 640 x 480 resolution and sunlight readable LCD
- 8 menu keys
- Advertising capability

Keypad

- 16-key alphanumeric stainless steel keypad
- Encrypting PIN Pad (EPP)
- Triple DES compliant

Printer

- Thermal paper
- 80 mm with presenter
- Automatic paper loading and cutting
- Paper out sensor

Cash Dispenser

- Friction feed cash dispensing unit
- Reject bin with key lock
- Single and multi-cassette options
- Near-end sensor
- Double detection sensor
- *CDU option:*
 - 3rd cassette

Card Reader

- Dip-type card reader
- Optional dip EMV smart card reader
- Optional EMV motorized card reader (Track 1,2,3 Read)

Security

- UL 291 Business Hours

- UL 291 Level One ATM
- *Lock option:*
 - Electronic lock
 - Manual lock
 - Kaba® Mas Cencon lock

-
- Communication**
- 56k modem for dial-up connection
 - Ethernet card for TCP/IP and LAN connectivity
 - Optional wireless

-
- Voice Guidance**
- Voice Guidance System

-
- Hardware**
- PC-based architecture - Intel XScale® 32-bit processor
 - 32 MB Flash and 64 MB RAM, expandable to 256MB
 - 2 PCMCIA expansion slots
 - 5 serial ports
 - 4 USB Master ports

-
- Software**
- Microsoft® Windows® CE .NET operating system
 - WOSA/XFS Compliant
 - Electronic Journal using Disk On Chip technology
 - Multi-language display
 - *Software options:*
 - NDC+

-
- Dimensions**
- Width: 16.9" (429 mm)
 - Depth: 25.6" (650 mm)
 - Height: 54.3" (1390 mm) without topper
 - Height: 64.9" (1648 mm) with low topper
 - Height: 77.8" (1976 mm) with high topper
 - Weight: 172 lbs (78 kg) weight varies with options
